TECHNICAL SHEET

WATER EFFICIENT TECHNOLOGY (WET) PROGRAM

GENERAL INFORMATION

JEA offers commercial rebates for a variety of water-saving measures including low-flow pre-rinse spray valves, ENERGY STAR® dishwashers, high-efficiency toilets and urinals, faucet aerators, custom measures, and more.

Pre-approval before the purchase or installation of eligible water upgrades is required. All measures are available to JEA Commercial Water customers and not eligible for residential use.

Rebates for additional energy and water efficiency measures may be available. For more information about rebates, eligibility requirements, rebate levels, other JEA energy and water efficiency programs, or general inquiries, visit jea.com/BusinessRebates, email JEAbusiness@icf.com, or contact the Customer Service Center at 1-844-604-4393.

WATER EFFICIENT TECHNOLOGY (WET) PROGRAM

ELIGIBILITY REQUIREMENTS

1. You do not need to engage a Trade Ally to purchase/install water-saving measures.
2. An inspection may be required prior to installing the water measures. Inspections are randomly selected and are typically conducted for larger projects.
3. Used or refurbished equipment is not eligible. All equipment must be new.
4. Rebates for high-efficiency toilets are only available for existing toilets 3 gpf or higher. Rebates for high and ultra high-efficiency urinals are only available for existing urinals 1.5 gpf or higher.
5. Custom measures require a narrative description of existing/baseline conditions and proposed steps to implement the measure(s). Calculations are also required to substantiate estimated GPD water use reduction in an Excel file.
6. Business Rebates are capped at $100,000 per project (location) per year, not to exceed 50% of the total project cost.
7. Service locations using reclaimed water, or water from a well, lake, pond, etc. for irrigation are not eligible for irrigation and landscaping measure rebate consideration.

APPLICATION INSTRUCTIONS

1. Complete the Water Equipment Technology (WET) Workbook available on the JEA Resources page. For assistance, contact our Customer Service Center at JEAbusiness@icf.com or 1-844-604-4393.
2. Choose the water-saving measures you wish to install. A pre-inspection may be required, so ensure your chosen measures are not removed until you receive the JEA pre-approval letter.
3. Submit your application via the Online Application Portal. For assistance, contact our Customer Service Center at JEAbusiness@icf.com or 1-844-604-4393.
4. Once you receive the pre-approval letter, purchase and install your pre-approved water-saving measures.
5. Contact us once all the measures are fully installed and submit final invoices through the online application portal. A post-inspection may be required.
6. Upon JEA's final review and approval, you will receive your rebate check within 4-6 weeks.

Sink and Faucet Measures

MEASURE DESCRIPTION	REBATE ($)
New faucet ≤ 0.5 gallons per minute flow rate	$105.00
New faucet ≤ 1.0 gallons per minute flow rate	$75.00
New faucet ≤ 1.5 gallons per minute flow rate	$44.00
Touchless sensor faucet	$65.00
Solar or water-powered touchless sensor faucets	$65.00
Low-flow aerator ≤ 0.5 gallons per minute flow rate	$8.00
Low-flow aerator ≤ 1.0 gallons per minute flow rate	$8.00
Low-flow aerator ≤ 1.5 gallons per minute flow rate	$8.00
Low-flow shower head ≤ 1.5 gallons per minute	$10.00
Low-flow salon rinse valve ≤ 1.45 gallons per minute	$90.00

TECHNICAL SHEET

WATER EFFICIENT TECHNOLOGY (WET) PROGRAM

KITCHEN MEASURES	
MEASURE DESCRIPTION	**REBATE ($)**
Low-flow pre-rinse spray valve	$60.00
Heat-cleansing, non-continuous flow drop-in dipper wells	$600.00
Waterless wok	$1,400.00
ENERGY STAR qualified steamer	$450.00
ENERGY STAR qualified ice machine	Refer to the Ice Machines Technical Sheet for detailed information on eligible ice machines and incentives, including important technical information and application instructions.
Boilerless / connectionless steamer	$450.00
ENERGY STAR commercial dishwasher	$125.00
RESTROOM MEASURES	
MEASURE DESCRIPTION	**REBATE ($)**
Composting toilet	$225.00
High-efficiency toilet = 0.8 gpf	$250.00
High-efficiency toilet = 1.28 gpf	$100.00
Dual flush toilet ≤ 1.28 gpf / 0.92 gpf	$140.00
Ultra high-efficiency urinal = 1/8 (0.125) gpf	$75.00
High-efficiency 0.5 gpf urinals	$50.00
OTHER MEASURES	
MEASURE DESCRIPTION	**REBATE ($)**
ENERGY STAR qualified clothes washer	$100.00
Rain cistern or underground tank (capacity ≥ 200 gallons)	$320.00
Low-water, no-water, or native landscaping covers 50% of landscaped area	$400.00
Smart irrigation controllers (weather-based or soil moisture-based)	$82.00
Drip irrigation system	$205.00
Greywater reuse for plumbing	Custom - $0.88/GPD reduction
Greywater reuse for irrigation	Custom - $0.88/GPD reduction
Greywater reuse for mechanical operations	Custom - $0.88/GPD reduction
On-site wastewater treatment and reuse as potable water	Custom - $0.88/GPD reduction
Site-specific custom water efficiency measures	Custom - $0.88/GPD reduction
