

2026 Residential Solar PV Program Summary

Purpose: The CenterPoint Energy Residential Solar PV Program (RSPP) was developed to achieve cost-effective reduction in peak demand and overall load growth on the electric grid by providing incentives to participating service providers who install solar photovoltaic systems on homes within CenterPoint's electric territory.

Budget: The RSPP has a budget of \$1,000,000 and runs from January 1, 2026 to December 31, 2026, or until funds run out.

Participant Eligibility: Energy Service Companies (ESCOs), local contractors, and retailers may participate in this program. Homes must be residentially metered within the CenterPoint Energy Electric territory. All CenterPoint Energy ESIs start with 100890. **This is not a direct-to-customer program.** All participants must have an application, W-9, and insurance on file.

Database: All Participants must apply at <https://cnpsolar.customerapplication.com/>, and upload all documentation as work is completed to this database.

Project Eligibility: Residentially metered single-family homes are eligible for this program. Multifamily properties are eligible if the residences are individually metered. Multifamily project applications must be reviewed and approved by CenterPoint Energy before the installation of any measures may begin.

Eligible Measures: This program targets the installation of Solar Photovoltaic Systems in residential homes. However, any PUCT approved measure in the [Texas TRM](#) is eligible to receive incentives through our residential portfolio. These include envelope measures (Insulation, windows, air infiltration and duct efficiency).

Timeline: Projects must be submitted within 30 days after work is completed. CenterPoint reserves the right to inspect the measures post-installation.

Required Forms: For **every** Site, the following forms must be submitted:

- Customer Agreement form
- Customer Invoice with the CenterPoint Energy Incentive clearly labeled
- PV Watts report

Incentive Rates:

Measure	DC System Size (kW)
Solar PV System	\$135/Rated kW
	\$200/Rated kW for HTR Projects
All Other Measures	See RSOP Program Manual
