

Commercial Standard Offer Program

Energy for what matters most.

The Commercial and Industrial Standard Offer Program offers incentives to non-residential customers within the CenterPoint Energy electric territory. Cash incentives are available for lighting, HVAC, roofing and other projects that may reduce energy consumption and/or peak electric demand. Program participants may be any company, contractor or customer who conducts energy efficient retrofit and new construction projects in commercial and industrial facilities.

2025 Incentive rates

Measure type	\$/kW	\$/kWh
Lighting: LED	\$207	\$0.06
Cooling: direct expansion (DX) units	\$317	\$0.11
Cooling: chiller	\$374	\$0.11
Cooling: other	\$276	\$0.11
Motor	\$180	\$0.07
Variable frequency drives (VFD)	\$200	\$0.06
Window film	\$180	\$0.06
Refrigeration	\$220	\$0.06
Foodservice	\$220	\$0.06
Roofing	\$240	\$0.09
Renewables (i.e. solar, wind)	\$200	\$0.03
Other measures	\$200	\$0.07
Electric vehicle ENERGY STAR® level 2 charger	\$80 flat rate up to 100 units	

Eligibility

- To participate, a qualifying facility must achieve a minimum summer peak electric peak demand reduction of 15kW and/or energy savings of 100,000kWh.
- Large commercial facilities must have a peak demand of at least 100 kW at a single site or a combined peak demand of at least 250 kW at multiple sites.
- Small commercial facilities must have a maximum peak demand of less than 100 kW.
- New construction projects must exceed current minimum energy efficiency standards.

Participate with CenterPoint in six easy steps:

STEP 1

Enroll in the program

STEP 2

Submit project application for review

STEP 3

Receive feedback or project approval

STEP 4

Coordinate facility inspections

STEP 5

Verify demand and/or energy reduction

STEP 6

Qualifying projects receive financial incentives
