Earn Rebates When You Upgrade and Save

BUSINESS REBATES PROGRAM

OVERVIEW

Energy efficiency upgrades make smart investments. The JEA Business Rebates Program offers rebates designed to help you make those efficiency upgrades at a lower initial cost.

The Business Rebates Program helps electric business customers replace aging, inefficient equipment and systems with efficient technologies. Through financial rebates and technical assistance, our program provides the right mix for you.

BENEFITS FOR YOUR BUSINESS

- ✓ Efficient technologies reduce your energy use and minimize costs.
- ✓ Investments in energy efficiency reduce greenhouse gas emissions, which helps the environment and your local community.
- ✓ Energy-efficient equipment can streamline operations, enhancing workplace productivity and improving employee comfort.
