# CONSERVE AND SAVE WITH WATER EFFICIENT TECHNOLOGY

## BUSINESS REBATES PROGRAM

### THE LESS YOU USE, THE MORE YOU SAVE

JEA is pleased to announce rebates for water-saving equipment through its Water Efficient Technology (WET) program. All commercial water customers are eligible to participate, and rebates are available for any approved measure that conserves water.

By upgrading to more efficient equipment, you can take advantage of rebates to not only help you save now, but also save long-term on your water bills.

By replacing aging, inefficient equipment and systems with efficient technologies, you can take advantage of rebates to help you save, while enjoying these benefits:

- Efficient technologies reduce your water use and minimize costs.
- Investments in water efficiency reduce water waste, which helps the environment and local community.
- Water-efficient equipment can streamline operations, enhance workplace productivity and improve employee comfort.

### CUSTOM REBATES ARE ALSO AVAILABLE

Do you have other water-saving projects that are not listed? We can work with you to craft a custom rebate package for innovative and cost-effective water-saving opportunities, as long as water savings can be documented.

Below is a list of eligible equipment and rebates:

Sink & Faucet Equipment	Rebate Amount
New faucet ≤ 0.5 gallons per minute flow rate	Up to \$105.00
Touchless sensor faucet	\$65.00
Solar- or water-powered touchless sensor faucets	\$65.00
Low-flow aerator	\$8.00
Low-flow shower head	\$10.00
Low-flow salon rinse valve	\$90.00
Kitchen Equipment	Rebate Amount
Low-flow pre-rinse spray valve	\$60.00
Heat-cleansing, non-continuous flow drop-in dipper wells	\$600.00
Waterless wok	\$1,400.00
ENERGY STAR® qualified steamer	\$450.00
ENERGY STAR qualified ice machine	Refer to Ice Machine Rebate Program
Boilerless/connectionless steamer	\$450.00
ENERGY STAR commercial dishwasher	\$125.00
Restroom Equipment	Rebate Amount
Composting toilet	\$225.00
High-efficiency toilet = 0.8 gpf	\$250.00
High-efficiency toilet = 1.28 gpf	\$100.00
Dual-flush toilet ≤ 1.28 gpf/0.92 gpf	\$140.00
Ultra high-efficiency urinal = 1/8 (0.125) gpf	\$75.00
High-efficiency 0.5 gpf urinal	\$50.00
Other Equipment	Rebate Amount
ENERGY STAR qualified clothes washer	\$100.00
Rain cistern or underground tank (capacity ≥ 200 gallons)	\$320.00
Low-water, no-water, or native landscaping covering 50% of landscaped area	\$400.00
Smart irrigation controllers (weather-based or soil moisture-based)	\$82.00
Drip irrigation system	\$205.00
