

Prescriptive & Custom Application Process

-  Customer/Contractor
-  Action Program Action

- 1** Prepare Pre-Approval Documentation to Verify Eligibility
 - Refer to Pre-Approval Required Documentation list below.
- 2** Submit Application and Required Documentation
 - Via email: SJGEnergySavings@LCF.com or the [Prescriptive](#) or [Custom](#) Portal
- 3** Initial Engineering Review
 - SJG Program Team will review documentation and may complete a pre-inspection to confirm eligibility.
- 4** Project Pre-Approval
 - SJG Program Team will send a pre-approval email.
- 5** Project Installation Completed
 - Contractor completes project installation.
- 6** Submit Final Approval Documentation
 - Refer to Final Approval Required Documentation list below and submit via email.
- 7** Final Engineering Review
 - SJG Program Team will review final documentation and may complete post inspection.
- \$** Incentive Check Mailed to Payee
 - Incentive check will be mailed to payee listed on the application.

Required Documentation

Submit via email to: SJGEnergySavings@LCF.com or in the [Prescriptive](#) OR [Custom](#) Portal

PRE-APPROVAL	FINAL APPROVAL
✓ Completed and signed application	✓ Invoice showing: Separate material and labor costs, model, serial, quantity, unit price/s, and install start/end dates (if self-install)
✓ W-9, ST-4, or ST-5 Form for payee	
✓ Contractor proposal showing scope of work and costs	
✓ Recent copy of an entire gas and electric utility bill showing same name and account as application payee	
✓ Manufacturer's specification sheet/s indicating model, size, and efficiency	✓ Pictures of equipment nameplates with manufacturer, model, and serial numbers
✓ ENERGY STAR® or Air Conditioning, Heating and Refrigeration Institute (AHRI) Certificate	✓ Signed completion document (provided when project is pre-approved)
✓ Prescriptive or Custom Measure Workbook with all applicable tabs completed	✓ Revised Prescriptive or Custom Measure Workbook (if scope changed)
✓ For Custom, an energy savings analysis must be submitted with pre-approval documentation comparing existing to proposed efficiencies based on standard engineering methodologies. For end of useful life measures, the baseline must reference current code efficiencies. For final approval, submit any revisions to pre-approval documentation.	

0% on-bill financing available.

Customer must apply through Slipstream.

See [South Jersey Gas On-Bill Repayment Program](#) for complete details.

CUSTOMER AUTHORIZATION AND SIGNATURE

I agree to the terms and conditions of the Prescriptive and Custom Programs and the Specific Program Requirements for measures.

I agree that this document and all notices and disclosures made or given relating to this document may be created, executed, delivered and retained electronically and that the electronic signatures appearing on this document and any related documents shall have the same legal effect for all purposes as a handwritten signature.

The information, statements, and documents I have provided in and with this document are true and accurate to the best of my knowledge. I am aware that if any of them are willfully false, I am subject to punishment.

By signing this application, the signatories agree to comply with the provisions of the New Jersey Prevailing Wage Act, N.J.S.A. 34:11-56.26 et seq., (Act), if and to the extent that Act may apply to the work covered by this application.

If applicable, I authorize payment of the incentive to the third party listed in the Payee Information field of this application.

By participating in the Company's energy efficiency and peak demand reduction programs, customers agree their electric utility will maintain ownership of all Capacity Rights from electric savings measures, which refers to the demand reduction associated with any energy efficiency and peak demand reduction measure for which incentives were provided by the Company. Your electric utility will aggregate these energy efficiency demand reduction attributes into the PJM capacity market as appropriate, with proceeds being used to reduce customers' costs for the programs.

I certify that all information provided above is correct to the best of my knowledge, and I give the New Jersey Board of Public Utilities, NJ's Clean Energy Program and participating electric and gas utilities and contractors permission to: 1) share the information I have provided above with all parties planning to do work on the facility I represent or evaluate its energy usage; 2) use, at no charge, any description or pictures relating to the work performed at this facility for the purposes of program administration, training and presentations; and 3) have reasonable access to this facility to inspect the work performed. I understand that all work is guaranteed for a period of one year.

Non-Condensing Natural Gas Fired Boilers/ Boiler Tune-up

Code	Equipment Type	Capacity (MBh)	Efficiency Requirement	Incentive
B1	Hot Water	<300	85% AFUE	\$6.00/MBh
B2	Hot Water	≥ 300 to ≤ 1,500	85% Thermal Efficiency	\$5.00/MBh
B3	Hot Water	>1,500 to ≤2,500	85% Thermal Efficiency	\$5.00/MBh
B4	Hot Water	>2,500	85% Thermal Efficiency	\$3.00/MBh
B5	Steam, all except natural draft	<300	82% AFUE	\$3.00/MBh
B6	Steam, all except natural draft	≥300 to ≤1,500	81% Thermal Efficiency	\$2.00/MBh
B7	Steam, all except natural draft	>1,500 to ≤2,500	81% Thermal Efficiency	\$2.00/MBh
B8	Steam, all except natural draft	>2,500	81% Thermal Efficiency	\$3.00/MBh
B9	Steam, natural draft	<300	82% AFUE	\$3.00/MBh
B10	Steam, natural draft	≥300 to ≤1,500	81% Thermal Efficiency	\$2.00/MBh
B11	Steam, natural draft	>1,500 to ≤2,500	81% Thermal Efficiency	\$2.00/MBh
B12	Steam, natural draft	>2,500	81% Thermal Efficiency	\$3.00/MBh
BT-U	Boiler Tune-up	All sizes	Before/After Combustion Analysis Results Required	\$1.00/MBh - capped at tune-up cost

Condensing Natural Gas Fired Boilers/ Unit Heater / Boiler Tune-up

Code	Equipment Type	Capacity (MBh)	Efficiency Requirement	Incentive
B13	Hot Water Boiler	<300	>90% AFUE, Non-Condensing to Condensing	\$1,000/unit
			MF in-unit boiler	\$900/unit
B14		≥300 to ≤1,500	88% Thermal Efficiency	\$4.00/MBh
B15		>1,500 to ≤2,500	88% Thermal Efficiency	\$4.00/MBh
B16		>2,500	88% Thermal Efficiency	\$5.00/MBh
B17		<300	>95% AFUE, ENERGY STAR®, Non-Condensing to Condensing	\$7.50/MBh
			MF in-unit boiler	\$1,000/unit
B18		≥300 to ≤1,500	>94% Thermal Efficiency, ENERGY STAR®	\$9.00/MBh
B19		>1,500 to ≤2,500	>94% Thermal Efficiency, ENERGY STAR®	\$9.00/MBh
B20		>2,500	>81% Thermal Efficiency, ENERGY STAR®	\$9.00/MBh
BT-U	Boiler Tune-up	All Sizes	Before/After Combustion Analysis Results Required	\$1.00/MBh - capped at tune-up cost
UH1	Unit Heater	All Sizes	90% AFUE	\$750/unit

Natural Gas Fired Furnaces / Furnace Tune-up

Code	Equipment Type	Capacity (MBh)	Efficiency Requirement	Incentive
F1	Furnace	≥95% AFUE	Non-Condensing to Condensing	\$1,150/unit
F2		≥97% AFUE		\$1,500/unit

Natural Gas Fired Low Intensity Infrared Heating

Code	Equipment Type	Capacity (MBh)	Efficiency Requirement	Incentive
FT-U	Furnace Tune-up	All Sizes		\$250/unit
LIH1	Low Intensity Infrared Heater	≤100	Indoor Installation Only, UL or OSHA NRTL	\$2,000/unit
LIH2		>100		\$2,000 /unit

Natural Gas Fired Boiler Economizers / Controls / Thermostats

Code	Economizers	Boiler Capacity (MBh)	Criteria	Incentive
BFUE1	Fuel Use Economizer Controls	<800	Individual boiler installation, UL or OSHA NRTL, Existing Equipment or New Replacement Units without Control	\$1,200/unit
BFUE2		≥800 to ≤1,600		\$1,500/unit
BFUE3		>1,600 to ≤3,000		\$1,800/unit
BFUE4		>3,000 to ≤3,500		\$2,100/unit
BFUE5		>3.5 to 4 MMBtu		\$2,400/unit
BFUE6		>4,000		\$2,700/unit
BE1	Stack Economizer	Any Size	N/A	\$11/MBh
Code	Control Type	Type	Criteria	Incentive
BR1	Reset Controls	All Boiler Sizes	N/A	\$1.00/MBh
WSTAT	Thermostat	Smart (Wi-Fi) Capable	Occupancy/Motion Sensing, must control natural gas equipment	\$150/unit
DCV	Demand Control Ventilation	N/A	Existing HVAC system (with no DCV or heat recovery), CO ² monitoring of both indoor and outdoor air concentration	\$2,500/system

Integrated Natural Gas Fired Condensing Boiler / Water Heater

Code	Capacity (MBh)	Efficiency Requirement	Criteria	Incentive
IBHW1	<300	≥90% AFUE	ENERGY STAR®	\$2,500/unit
IBHW2	≥300	≥94% Thermal Efficiency	ENERGY STAR®	\$2,500/unit

Natural Gas Kitchen / Food Service Equipment

Code	Commercial Dishwasher Type	Criteria	Efficiency Requirement	Incentive
DLTUC	Under Counter	Low Temperature	Commercial, ENERGY STAR® or CEE	\$400/unit
DLTD	Door Type			\$700/unit
DLTSTC	Single Tank Conveyor			\$1,000/unit
DLTMTC	Multi Tank Conveyor			\$1,500/unit
DHTUC	Under Counter	High Temperature	Commercial, ENERGY STAR® or CEE	\$400/unit
DHTD	Door Type			\$750/unit

Natural Gas Kitchen / Food Service Equipment Cont'd

Code	Cooking Equipment Type	Criteria	Efficiency Requirement	Incentive
DHTSTC	Single Tank Conveyor	High Temperature	Commercial, ENERGY STAR® or CEE	\$1,500/unit
DHTMTC	Multi Tank Conveyor			\$1,500/unit
CRO	Rack Oven	Single, Double	Energy Star v3.0 or SASD Energy Star	\$3,000/unit
CG	Griddle	Single-sided	Energy Star V1.2	\$1,500/unit
CVF	Vat Fryer	Standard or large	Energy Star v3.0 or SASD Energy Star	\$1,000/unit
PRSV	Pre-Rinse Spray Valve	N/A	Product Class 1 (≤ 5.0 ozf) < 1.0 gpm Product Class 2 (> 5 to ≤ 8 ozf) < 1.2 gpm Product Class 3 (> 8 ozf) < 1.28 gpm	\$100/unit

Ventilation

Code	Ventilation Equipment	Capacity	Criteria	Incentive
HRV	Heat Recovery Ventilator	All Sizes	Sensible heat transfer only, No existing heat recovery, AHRI	\$8/cfm
ERV	Energy Recovery Ventilator	All Sizes	Sensible & latent heat recovery, No existing energy recovery, AHRI	\$8/cfm

Natural Gas Cooling

Code	Equipment Type	Capacity (Tons)	Efficiency Requirement	Incentive
GAC1	Absorption Chiller	< 100	≥ 1.1 Full Load COP	\$450/ton
GAC2		100 to 400		\$400/ton
GAC3		> 400		\$400/ton
GEDC1	Gas Engine Driven Chiller	All Sizes	N/A	\$400/ton
GHP	Gas Heat Pumps	All Sizes	N/A	\$3000/unit

Natural Gas Water Heating / Appliances

Code	Water Heaters	Capacity (MBh)	Efficiency Requirement	Incentive
WHS1	Storage Type	$< 75 / < 55$ gallons	> 0.67 EF or 0.64 UEF, ENERGY STAR®	\$600/unit
WHS2		$< 75 / > 55$ gallons	> 0.81 UEF, ENERGY STAR®	\$1,000/unit
WHS3		75 to 105	$> 82\%$ Thermal Efficiency, ENERGY STAR®	\$500/unit
WHS4		75 to 105	$> 94\%$ Thermal Efficiency, ENERGY STAR®	\$750/unit
WHS5		> 105	$> 82\%$ Thermal Efficiency, ENERGY STAR®	\$500/unit
WHS6		> 105	$> 94\%$ Thermal Efficiency, ENERGY STAR®	\$800/unit
WHI1	Instantaneous Type	< 200	$> 90\%$ Thermal Efficiency, ENERGY STAR®	\$750/unit
WHI2		≥ 200	$> 90\%$ Thermal Efficiency, ENERGY STAR®	\$2,000/unit

Natural Gas Water Heating / Appliances Cont'd

Code	Dryer Valve	Capacity	Criteria	Incentive
DV1	Commercial Modulating	Two Stage	30-250 Pound Capacity	\$500/unit
Code	Central Domestic Hot Water System Controls	Requirement	Criteria	Incentive
HWRSD	Hot Water Recirculating System Demand Control/Temperature Modulation	N/A	Dormitory Use	\$2,800/unit
HWRSMF			Multi-family Use	\$2,800/unit

Residential Appliances - Multifamily In-Unit

Code	Appliance	Capacity	Efficiency Requirement	Incentive
RCW1	Residential Clothes Washer Tier 1	N/A	ENERGY STAR®	\$100/unit
RCW2	Residential Clothes Washer Tier 2	N/A	ENERGY STAR® Most Efficient	\$100/unit
RCD1	Residential Clothes Dryer Tier 1	N/A	ENERGY STAR®	\$100/unit
RCD2	Residential Clothes Dryer Tier 2	N/A	ENERGY STAR® Most Efficient	\$300/unit

Custom

Code	Item	Criteria	Efficiency Requirement	Incentive
N/A	Existing Building	- Benefit Cost Test Performed - Pre-approval Required	Meet or exceed minimum requirements as outlined by ASHRAE 90.1-2019. If ASHRAE does not apply, standard practice or other established resources may be considered for baseline analysis purposes.	First Year Savings Basis - Lesser of: \$3.75/therm \$0.16/ kwh (lighting) or \$0.33/ kWh (non-lighting) - Capped at 2-year payback and 75% of project cost - Rebates are capped at \$4M per entity

*Incentives are subject to change.

All offers are subject to available funding. South Jersey Gas reserves the right, with approval of the NJBPU to terminate, modify, suspend or extend this Program.

Incentives are increased by 30% for customers in the following Multifamily categories:

- Properties located in a low or moderate income census tract
<https://geomap.ffiec.gov/FFIECGeocMap/GeocodeMap1.aspx>
- Properties located in an Overburdened Community (OBC) low income community
<https://dep.nj.gov/ej/communities/>
- Properties located in an Urban Enterprise Zone (UEZ)
<https://www.arcgis.com/apps/webappviewer/index.html?id=96ec274c50a34890b23263f101e4ad9b>
- Properties located in an Opportunity Zone (OZ)
<https://www.arcgis.com/apps/webappviewer/index.html?id=96ec274c50a34890b23263f101e4ad9b>

ELIGIBILITY

1. This application package must be received by the Program Administrator on or before June 30, 2027 in order to be eligible for incentives. All participating customers are required to submit the most current application form.
2. All submissions will be reviewed based on the current program requirements and incentive levels approved by the New Jersey Board of Public Utilities (NJBP). Program Incentives are available to non-residential South Jersey Gas commercial, industrial and multi-family customers who pay a Societal Benefit Charge. Multi-family customers are defined as three or more units. Customers who have not contributed to the utility Societal Benefits Charge are not eligible for incentives offered through this program.
3. South Jersey Gas requires a complete, separate application for each customer utility account. Projects for the same utility account and the same technology being done at the same time should be submitted on one application.
4. All applicants are required to obtain the Program Administrator's pre-approval and incentive commitment prior to purchasing equipment and commencing installation or construction. Customers implementing projects without the Program Administrator's approval do so at their own risk, including, among other things, the risk of having their project deemed ineligible for incentives.
5. In order to be eligible for program incentives, a participating customer or an agent (contractor/vendor) authorized by a participating customer, must submit a properly completed application package that is signed by the participating customer. A complete application package should include all documentation listed in the checklist section of the application.
6. Applications signed by someone other than the customer require a letter of authorization.
7. Project invoices should list both the labor and material costs separately. The invoice should include a description of the equipment installed, quantity, and unit price.
8. For projects that are self-installed by the participating customer, in addition to the material invoices listing the equipment installed, quantity, and unit price, written documentation from the participating customer must be provided in lieu of a labor invoice attesting to the start and end dates of the self-installation.
9. Energy Efficient Measures must be installed in buildings located within South Jersey Gas' service territory and designated on the participating customer's incentive application. Installations must be completed in accordance with all laws, codes and other requirements.
10. Program incentives are available for qualified Energy-Efficient Measures as listed and described in program materials and incentive applications.
11. The participating customer must ultimately own the equipment through an up-front purchase. Equipment procured by participating customers through other programs offered by New Jersey's Clean Energy Program or South Jersey Gas, as applicable, are not eligible for incentives through this program.
12. Incomplete application submissions, applications requiring inspections and unanticipated periods of high volume may cause processing delays.
13. By participating in the Company's energy efficiency and peak demand reduction programs, customers agree their electric utility will maintain ownership of all Capacity Rights from electric savings measures, which refers to the demand reduction associated with any energy efficiency and peak demand reduction measure for which incentives were provided by the Company. Your electric utility will aggregate these energy efficiency demand reduction attributes into the PJM capacity market as appropriate, with proceeds being used to reduce customers' costs for the programs.
14. If applying for incentives for natural gas and electric measures at the same time through South Jersey Gas, it is prohibited to apply for the same incentive with your electric company.

INCENTIVE AMOUNTS

1. Program Incentives will not exceed the lesser of: a) The approved Program incentive amount, or; b) The total project cost of the Energy Efficient Measure. (Project cost is the expense directly associated with the Energy Efficient Measure, excluding NJ state sales tax).
2. Products offered at no direct cost to the participating customer are ineligible.
3. Program Incentives are limited to \$250,000 per utility account in a fiscal year.
4. All offers are subject to available funding. South Jersey Gas reserves the right, with approval of the NJBP to terminate, modify, suspend or extend this Program.

PRE- AND POST-INSPECTIONS

1. Projects are subject to the Program's random inspection selection process.
2. The Program must have reasonable access to participating customer's facility to post inspect the Energy-Efficient measures installed under this Program.
3. SJG and/or their designees including program administrators and evaluation contractors reserve the right to review installations to verify completion and measure energy savings to ensure compliance with all program requirements before issuing the rebate. Such reviews will be made at a time convenient to the applicant. Misrepresentation of installation location or measure eligibility may result in forfeiture of the rebate.

DEFICIENT APPLICATIONS

1. If an application package is incomplete, information is missing or deemed insufficient, the customer (or customer's representative) will be contacted via email. The information or documentation requested on the email must be received by the Program Administrator within 30 days of the date of the request. If additional deficiencies are still noted, there will be a follow-up email sent.
2. If a participating customer fails to respond to information requests within 30 days the application will be rejected. If an application is rejected, participating customers may re-apply under the program incentives and requirements in place at the time of re-application.

EXPIRATIONS

1. Pre-approved projects are given a one-year approval in which the proposed measures are to be installed and operational. An email is sent 30 days prior to project expiration. The participating customer will have 30 days to either submit a request for an extension OR submit final project paperwork. If no response is received within 30 days of expiration, the project will be cancelled.

2. Extension requests must be in writing from the participating customer and include the circumstances that led to the extension request, and the percentage of the project completed.
3. Extension requests may be granted for a period no longer than six (6) months. The Program Administrator may provide up to two six-month extensions from the original approval expiration date.
4. Upon expiration, if the project has not started and the participating customer is still interested in installing the equipment, the existing application will be cancelled and a new application package must be submitted, which will be reviewed under the program incentives and requirements in place at the time of re-submittal.

CHANGE IN CUSTOMER NAME/PAYEE AFTER PRE-APPROVAL

1. To initiate a change to the participating customer name or payee on an approved application, the following documentation must be provided:
 - a. Documentation from the participating customer authorizing the change
 - b. A new, fully signed application reflecting the updated participating customer or payee name.
 - c. For name change of the applicant/customer, a utility bill in the name of the new participating customer is required.
 - d. All such change requests are subject to Program Administrator approval.
 - e. Certain requests may require additional information to be submitted as defined by the Program Administrator.

TAX LIABILITY

The Program Administrator and South Jersey Gas will not be responsible for any tax liability that may be imposed on any participating customer as a result of the payment of program incentives. All Participating Customers must supply their federal tax identification number or social security number to the Program Administrator on the application form in order to receive a Program Incentive.

PREVAILING WAGE

Participating projects with a contract at or above current prevailing wage contract threshold amount set pursuant to the New Jersey Prevailing Wage Act (N.J.S.A. 34:11-56.25 et seq.) are required to pay no less than prevailing wage rate to workers employed in the performance of any construction undertaken in connection with New Jersey Board of Public Utilities financial assistance, or undertaken to fulfill any condition of receiving New Jersey Board of Public Utilities financial assistance, including the performance of any contract to construct, renovate or otherwise prepare a facility, the operations of which are necessary for the receipt of New Jersey Board of Public Utilities financial assistance. By submitting an application, or accepting program incentives, applicant agrees to adhere to New Jersey Prevailing Wage requirements, as applicable. By signing the application, the signatories agree to comply with the provisions of the New Jersey Prevailing Wage Act, N.J.S.A. 34: 11-56.25 et seq., (Act), if and to the extent that Act may apply to the work covered by the application.

More information can be found at

https://www.nj.gov/labor/wagehour/regperm/public_contracts_general.html

ENDORSEMENT

The Program Administrator and South Jersey Gas do not endorse, support or recommend any particular manufacturer, product or system design in promoting this Program.

WARRANTIES

The Program administrator and South Jersey Gas do not warrant the performance of installed equipment, and/or services rendered as part of this program, either expressly or implicitly. No warranties or representations of any kind, whether statutory, expressed, or implied, including, without limitations, warranties of merchantability or fitness for a particular purpose regarding equipment or services provided by a manufacturer or vendor qualify. Contact your vendor/services provider for details regarding performance and warranties.

LIMITATION OF LIABILITY

By virtue of participating in this Program, Participating Customers agree to waive any and all claims or damages against the Program Administrator and South Jersey Gas, except the receipt of the Program Incentive. Participating Customers agree that the Program Administrator and South Jersey Gas' liability, in connection with this Program, is limited to paying the Program Incentive specified. Under no circumstances shall the Program Administrator and South Jersey Gas, its representatives, or subcontractors, be liable for any lost profits, special, punitive, consequential or incidental damages or for any other damages or claims connected with or resulting from participation in this Program. Further, any liability attributed to the Program Administrator or South Jersey Gas under this Program shall be individual, and not joint and/or several.

TERMINATION

This Program is subject to New Jersey Board of Public Utilities (NJBP) regulatory rules and orders. South Jersey Gas reserves the right to change any portion of the Program or end this Program without notice.

PARTICIPATING CUSTOMER'S CERTIFICATION

Participating Customer certifies that he/she purchased and installed the equipment listed in their application at their defined New Jersey location. Participating Customer agrees that all information is true and that he/she has conformed to all of the Program and equipment requirements listed in the application.

ACKNOWLEDGEMENT

The applicant gives the Program Administrator permission to share records with the South Jersey Gas, and contractors it selects to manage, coordinate or evaluate the NJ Smart Energy Partners Program including the release of electric and natural gas utility billing information, as well as make available to the public any and all information required by the Open Public Records Act and/or other applicable laws.

DEFINITIONS

NJBP – New Jersey Board of Public Utilities

Participating Customers – Customers who pay a Societal Benefit Charge.

Multifamily customers are defined as three or more units.

Program – Prescriptive and Custom Program

Program Administrator – ICF
